

INTRODUCTION

Your new Headset is a telephone headset that connect to your telephone to allow hands-free, fatigue conversation.

Please read this manual carefully that you can quickly enjoy the convenience provided by the following features.

HEADBAND TYPE

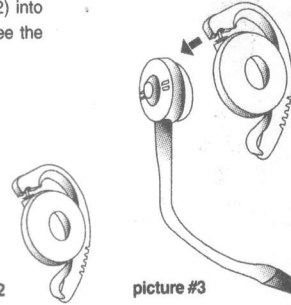

Positioning the headband & the ear-hanger

Using the ear-hanger type.

- 1) Grasp the receiver unit
- 2) Taking out the headband and receiver ring from receiver unit (Please see the picture #1)

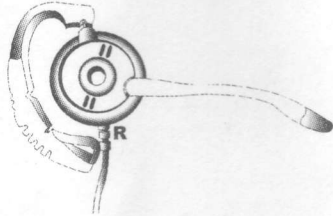

- 3) And then, assembling the ear-hanger (picture # 2) into receiver unit. (Please see the picture #3)

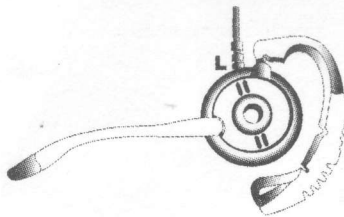

- On the right ear

Insert the ear-hanger into the receiver unit so that the ear-hanger ring written "R" should be vertical to the strain relief of the cord.

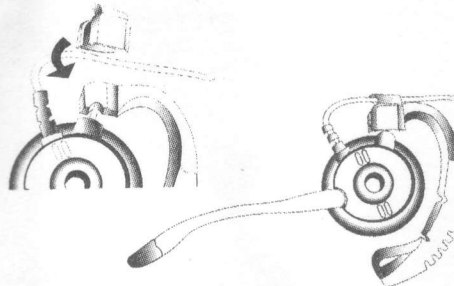

- On the left ear

Insert the ear-hanger into the receiver unit so that the ear-hanger ring written "L" should be vertical to the strain relief of the cord.

Also, to locate the cord behind the ear put the cord into the plastic clip using the plastic cord clip as the picture.

Notice : For more comfortable wearing, Put the ear-hanger on the back of the ear and adjust the hook until the ear-hanger is resting comfortably on your ear.

- Using headband on the left ear

Hang the cord on the clip of the headband to place the cord behind the ear.
